EDUCATION

University Of Constantine 02 | **Master's degree in Software Engineering** | Constantine, Algeria **Oct 2018- sep 2020**

PROFESSIONAL EXPERIENCE

Self-employed : full-Stack developer 01/2022 - Present

- **Developed a modern and interactive learning platform** for Algorithm Academy, utilizing cutting-edge technologies like Next.js, Chakra UI, and TypeScript to enhance the user experience.

Rania Chettab
raniachettab3@gmail.com

- **Leveraged full-stack development skills** at Full-Stack Academy, building a feature-rich application inspired by Notion. The project utilized Python (Django) and Vue.js for a seamless and efficient solution.
- **Demonstrated expertise in Progressive Web App (PWA) and Trusted Web App (TWA) development** while working at Bricoram and Full-Stack Academy. Utilized Python (Django), Angular, Selenium, and Cypress for streamlined development and project management, ensuring cross-platform functionality and a smooth user experience.

Full-time (Remote): full-Stack developer
08/2022 - 02/2024

Bricoram - zeralda, Algeria

- **Developed and maintained code** for company websites primarily using React, Scss, JavaScript, and Python
- **Collaborated with a developers team**, gaining valuable teamwork experience
- **Worked on API integration** and developed functionality for systems using APIs.

Full-time (Onsite): full-Stack developer
03/2021 - 11/2020

InfoFix - Constantine, Algeria

- **Led the development of a desktop application** for a real estate company, which significantly improved their internal processes and boosted efficiency (quantify impact if possible).
- **Expanded Bifa's web application store** by independently developing and integrating new features, contributing to an enhanced user experience.
- **Proactively fostered strong communication skills** by actively engaging with stakeholders and managers to gain a comprehensive understanding of project requirements. This ensured the delivery of clean, well-architected software solutions aligned with project goals.
